SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- Critical fire weather conditions in effect through this evening for portions of Alpine, Inyo, Madera, Mono, and Tulare Counties, [and from Wednesday morning through evening for portions of Imperial and Riverside Counties](#). The combination of gusty winds, low relative humidity, and dry fuels could create conditions favorable for extreme fire behavior and rapid fire growth. [Strong and damaging winds from this evening through Wednesday morning for Santa Barbara County, and from this afternoon through Thursday afternoon for portions of Los Angeles, Orange, Riverside, San Bernardino, San Diego, and Ventura Counties.](#)

Active Weather Warnings, Watches and Advisories by County: http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

SIGNIFICANT FIRE ACTIVITY

Northern California:

Ward Incident, Plumas County, FRA

[Per Cal OES FDO:](#)

- 10 miles SE of Taylorsville
- 175 acres @ 0% – Expected Containment Unknown
- No structure or infrastructure threats
- Slow rate of spread in timber
- No OES or Local Government resources committed
- No 209 on file

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Cold air has filtered in behind a cold front bringing a sharp cool down, with areas of frost likely tomorrow morning. Temperatures in interior valleys may also drop slightly below freezing as well. A building ridge will bring a warming and drying trend for the second half of the week.

Medford Weather:

Post-frontal showers will diminish and end tonight as low level offshore flow develops. The offshore flow will peak tonight but still be around Wednesday night. A strong warming trend inland will commence today and continue through Friday. Warm and dry conditions will persist through the weekend.

Reno Weather:

Expect strong gusty winds today along with much cooler temperatures. Areas of blowing dust will occur through this afternoon, mainly across western Nevada. High pressure and warmer temperatures will return for the second half of the week.

San Francisco Weather:

The forecast area will have breezy and cool weather today behind the cold frontal passage from last night. A warming trend starts Wednesday as winds turn offshore with clear skies. Near record warmth possible Thursday into Friday as high pressure builds. Temperatures return to more seasonable readings over the weekend but the forecast remains dry.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

A fast-moving weather system exits the region this morning. Breezy to windy conditions along with much cooler temperatures will be left in its wake for today. The forecast area will have warming temperatures from midweek through Friday under building high pressure with locally breezy conditions continuing.

Hanford Weather:

A trough of low pressure will move through the central California interior today with windy and cooler weather. High pressure will bring a return of dry and warmer weather for the latter half of the week.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Gusty northwest winds will start today and will turn northeasterly by Wednesday with the strongest in the mountains of Ventura and Los Angeles. These offshore winds will also bring above normal temperatures into Saturday, but onshore flow will return early next week for a marine layer and cooling trend.

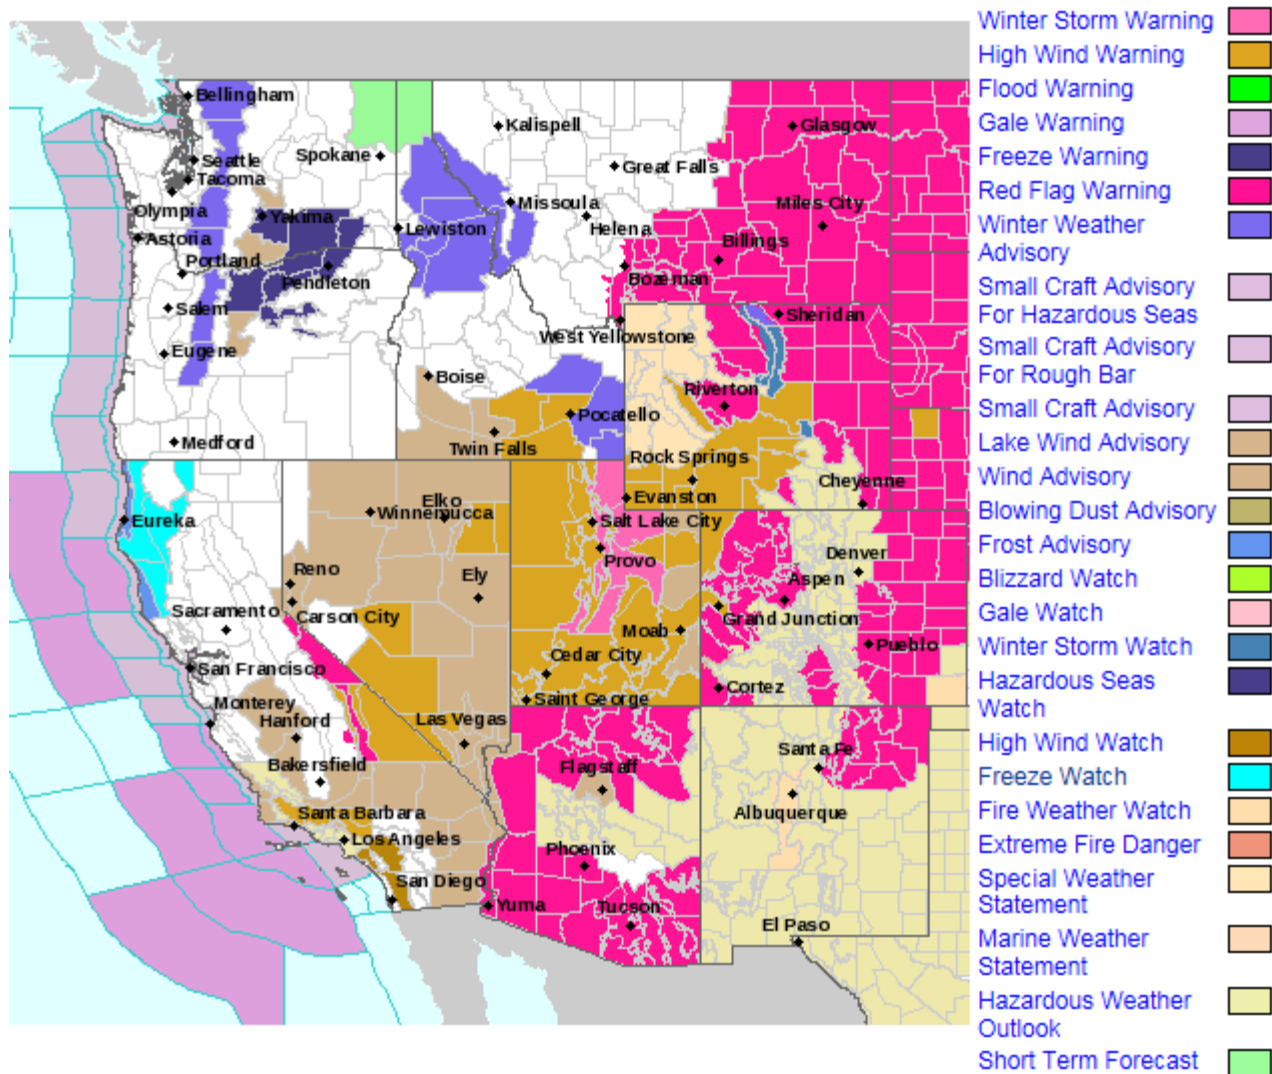

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Onshore flow, night and morning low clouds, and near average high temperatures today before Santa Ana conditions take hold Wednesday and Thursday. Temperatures will be 6 to 12 degrees above seasonal averages west of the mountains from Wednesday through Friday.

Southeast California Weather:

Another warm day today and a cold front will push through southeast California tonight and Wednesday. This will lead to very windy conditions and the frontal passage will also lead to much cooler temperatures, dipping below the normal by Thursday. The region can expect a warming trend Friday through Sunday with little change on Monday.

RECOVERY ACTIVITIES

Round Fire, Mono County

- Site sampling and hazardous materials recovery of the affected properties began 03/14/15. Cal Recycle began debris removal operations 03/23/15.

Project Totals as Day 13:

38	Homeowners who registered for the removal project.
3	Homeowners that denied entry.
38	Initial site assessment/site documentation complete.
38	Asbestos survey completed and results received.
15	Debris removal completed.
9/9	Confirmation sampling completed/approved.
0	Erosion Control Completed.
0	Approved by County for Building Permit.

Estimated Project Total Tonnage for the Project as of Day 13:

Category	Total Tons
Debris and Ash Disposed	1,972
Soil Disposed	1,789
Metals Recycled	799
Concrete Recycled	1,609
Total All Categories	6,169

Estimated Daily Tonnage:

Category	Day 13
Debris/Ash	305
Soil Disposed	170
Metal Recycled	78
Concrete Recycled	165
Total	718

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a weekly basis.
